We aren't an ordinary printing company. We're the only partner you need from the moment your idea is put down on paper, to the day it's delivered. We're experts at six different printing techniques on a multitude of materials. We're specialists in point-of-purchase, collateral and curriculum production, serving some of the biggest companies in the world. We can collate, kit and drop-ship your marketing materials to each retail outlet. We can give you the power of online project management like no other company. Whatever you want from a printing company, from a point - of - purchase design firm, from a fulfillment house, from a supply chain management software company — you can find at IntegraColor. **IT'S ALL UNDER ONE ROOF.**

## FULFILLMENT

*Ship once not twice*

IntegraColor eliminates the need to ship to a fulfillment house and again to your destination. Online technology and an in-house fulfillment center handle all your kitting and pack-out more quickly and easily, while saving you money.

- 106,000 sq.ft. secure facility
- 55 million units processed yearly
- Epoglobal real time inventory management
- Best buy carrier software
- Online order tracking and shipment notification

## EPOPGLOBAL INTERNET SOLUTIONS

*Take control and save money*

Our exclusive online supply chain management software package gives clients unprecedented control, flexibility, and savings in the print procurement and distribution process while protecting their brand images by controlling graphic standards.

Available modules include:

- Ordering
- Store Profiling
- Digital Asset Management
- P.O.P. Customization Including Multilingual
- Management Reports
- Online Catalogs
- Shipping Reports
- Web Sites & Services
